## LLC

### Newsletter October 2024

#### In this issue:

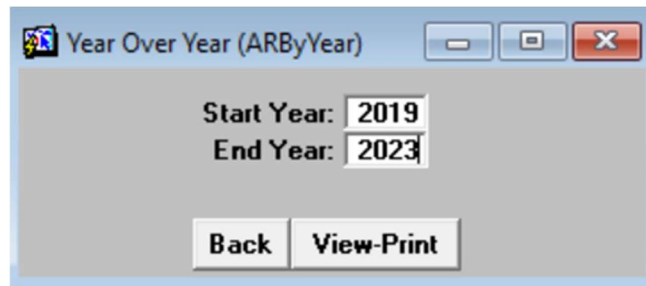

1. Year Over Year Reports
2. Storing and Viewing Documents
3. Hourly Tag Listing Enhancement

The General Election is on November 5<sup>th</sup>. We urge everyone to get registered and vote early for business-friendly candidates. Explain to your family and friends why this election is crucial to bring back lower prices and social sanity. Then, get them registered and go to the polls.

### Year Over Year Reports

Is your company on a good business trajectory? What is your best month? Does your financial institution want some insight on estimated revenues? Find this report on the Receivable Invoices screen. Select the [Reports...] button and choose Year Over Year Report. Enter the years to calculate.

### Storing and Viewing Documents

Did you know that you can create PDFs in various portions of the DTS and have the document view by double clicking on it? You can also scan documents and have them appear. For example, some users will create a paper copy of an invoice and then scan it with the associated freight bills into one file. The PDF is saved in the Receivable Invoices folder and can be viewed by double-clicking on the invoice number on the Receivable Invoices screen.

The User Preferences screen identifies the storage locations. In a multiple user environment, the folders should be created on the main PC and then the client computers are instructed to access it on that machine. For example:

\\MAINPC\Brasl\Safety

**Note!!!** If you are using this feature, please license a copy of Carbonite for off-site backups. Go to Carbonite.com for more information. With Carbonite you can also backup your Documents folder. If you hard drive fails, or is stolen, you can simply download all of you backed up files onto the new machine.
