

Certified Payroll

The Dump Truck System has several models for producing Certified Payroll forms. When the form is entered, a list of the Sundays appears from today and in reverse order. Select the Sunday that starts your certified payroll period. Note that you can enter an ending date and produce reports for the entire month.

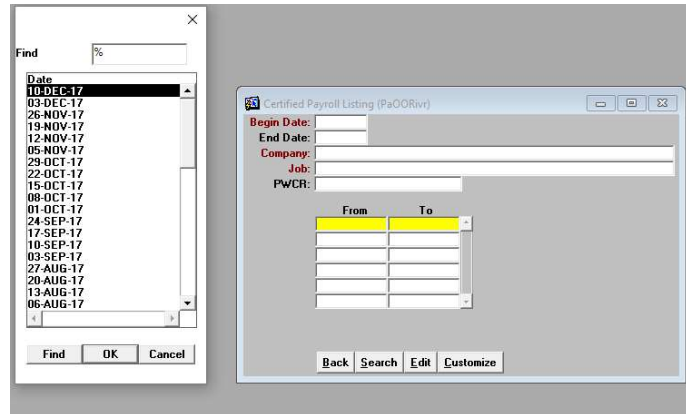

Figure 1. Select the starting date.

Figure 2 displays that a customer was selected, one of the customer jobs that falls in the reporting period and then breaks out the weeks for you.

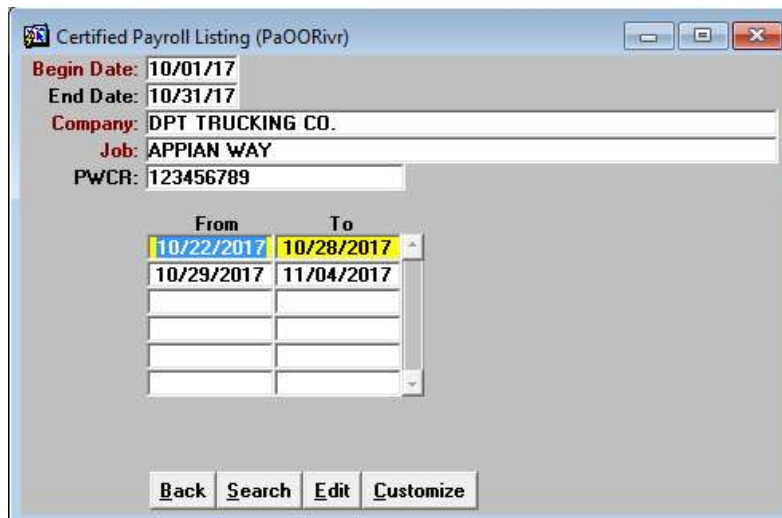

Figure 2. All parameters selected.

The next step is to double click on one of the weeks. The screen appears as shown in Figure 3. Use the [Fill Names and Addresses] to fill in the company detail information. The [Compute OT] takes the actual billing hours and splits the amounts to Regular Hours and Overtime hours. The [Do the Math] button recalculates the Regular and Overtime amounts. The quantities and rates can be modified to your needs.

When ready to print the form, uncheck any lines you do not want to appear on the report. You can now [View Front], [View Back] or print the front and back sheets.
