

# Hourly Summary Report

This report prompts for the start and end date. All tag entries that are either billing or paying by the hour are brought in and summarized by the driver or outside hauler. For outsiders, the broker and trailer rental fees are also displayed. The purpose of this report is to cross check the hours billed verses the hours paid. The hours can also be used to calculate payroll.

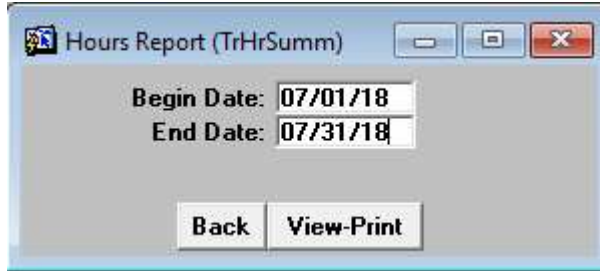

Figure 1

The report is grouped by driver/outside hauler alphabetically. Summaries are provided for each driver/hauler and totaled at the bottom of the report.
